

# PROVIDING SOLUTIONS FOR YOUR BUSINESS.

## CONTACT TRACEABILITY

### Overview

COVID-19 Alert Level 3 will require businesses to implement a plan to help facilitate contact tracing. Workers entering and leaving a site must complete a daily register along with a health declaration, it is advised the records should be kept for at least two months. There are various systems or programmes you can use to do this, including your Nimbus System.

### Mobile Contact Traceability

#### Contact Tracing data is available for easy retrieval and reporting

Nimbus has an extensive mobile offering. Those of our clients that currently run our mobile system could look at incorporating the following simple solution to assist in your COVID-19 Contact Tracing procedures and reporting. If you don't use the Nimbus Mobile system, we can set this form up in your Nimbus system for easy data entry at a later stage. Once the information from the paper form goes into the system, the data is available for easy retrieval and reporting.

#### Who will this suit

- Staff in the field already using Nimbus mobile application
- Site managers that have either Nimbus or Nimbus mobile
- Back office staff that input data from paper forms into their Nimbus system

Use your Nimbus Mobile application to track the following required information:

- Full Name
- Contact Telephone Number
- Postal Address
- Reason for Visit and Duration
